Lesson 1: Introduction to Ruby

Tribute Page Project

DIRECTIONS

Choose someone you look up to and build a tribute page using the user stories in the following slides.

Tribute Page Project

1. As a user, I want my tribute page to have an **element** with a corresponding **id="main"**, which contains all other elements.

2. As a user, I want to see an **element** with a corresponding **id="title"**, which contains a string (i.e. text) that describes the subject of the tribute page (e.g. "Steve Jobs").

3. As a user, I want to see a **div element** with a corresponding **id="img-div".**

4. As a user, I want to see a an **img element** with a corresponding **id="image"** within the **'img-div' element.**

5. As a user, I want to see an **element** with a corresponding **id="img-caption"** that contains text content describing the image show in **img-div.**

Tribute Page Project

6. As a user, I want to see an **element** with a corresponding **id="tribute-info"** which contains text content describing the subject of the tribute page.

7. As a user, I want to see an **element** with a corresponding **id="tribute- link"**, which links to an outside site that contains additional information about the subject of the tribute page.

- HINT: You must give your element an attribute of target and set it to _blank in order for your link to open in a new tab (i.e. target="_blank").

8. As a user, I want the **img element** to be **responsive** to resizing, relative to the width of its parent element.

9. As a user, i want the **img element** to be **centered** within its parent element.

10. As a user, I want to read a post, article, or story about the person with at least 2 headings in **h1 … h6**, and paragraphs in **p**
